

Weekly Log – Week [1] | [25/05/2026 – 30/05/2026]

Name: M Suhas Karthikeya

Role: SDE-I – Crita Creative

Reporting Manger: Sabariram S R

Summary

This week, I focused on both design and development tasks. On the design front, I worked on creating an AL brochure using Adobe Illustrator and desgined a vendor onboarding poster for Veloce. Alongside this, I completed a structured study plan covering QA and API testing concepts, which has helped build a stronger foundation for professional development. By the end of the week, I also transitioned into active project work, beginning contributions to a real-world project.

Tasks Completed

Date: 25/05/2026 (MONDAY)

1. Veloce Asset Liquidation Brochure Design.

- **What I did:** Designed a professional brochure for AL using Adobe Illustrator, focusing on layout composition, typography, and brand-consistent visual elements to effectively communicate the intended message.
- **Tools used:** Adobe Illustrator, Flaticon.
- **Status:**  In Progress

Proof:

 AL Brochure Design

2. Veloce Vendor Onboarding Poster Design.

- **What I did:** Desinged a vendor hiring poster with all the information sent by the client.
- **Tools used:** Adobe Illustrator, Flaticon.
- **Status:**  In Progress

 **Date: 26/05/2026 (TUESDAY)**

1. Veloce Vendor Onboarding Poster Design.

- **What I did:** Desinged a vendor hiring poster with all the information sent by the client.
- **Tools used:** Adobe Illustrator, Flaticon.
- **Status:**  Done

Proof:

 Poster Design

2. Phase-I Learning (Javascrpts Basics)

- **What I did:** Learnt basics in JS like let, const, var and datatypes.
- **Tools used:** YouTube, Chrome, Claude
- **Status:**  Done

 **Date: 27/05/2026 (WEDNESDAY)**

1. Veloce Asset Liquidation Brochure Design.

- **What I did:** Changes and rework on design is done as per the client's request.
- **Tools used:** Adobe Illustrator, Flaticon.
- **Status:**  Done

2. Phase-II Learning (JS related to Postman)

- **What I did:** Used JS to write scripts in Postman.
- **Tools used:** Postman, Claude
- **Status:**  Done

Proof:

 Postman API

Date: 28/05/2026 (THURSDAY)

1. Veloce Vendor Onboarding Design.

- **What I did:** Changes of illustrations and colors done, as per clients requirement.
- **Tools used:** Adobe Illustrator, Flaticon.
- **Status:**  Done

2. Phase-II Learning (Postman Collection)

- **What I did:** Written scripts for all HTTP Methods and fire the testing for entire collection.
- **Tools used:** Postman, Claude

- **Status:**  Done

Proof:

 Postman API

Date: 29/05/2026 (FRIDAY)

1. Phase-III Learning (Using JMeter for Performance Testing)

- **What I did:** Installed and setup the JMeter, learnt how to use it.
- **Tools used:** JMeter
- **Status:**  Done

2. Revision of Learning (Phase 1, 2, 3)

- **What I did:** Revised every step clearly and made ready for real project.
- **Tools used:** Postman, JMeter
- **Status:**  Done

2. Learnt How to make a Testing Report.

- **What I did:** With the guidance of Sabari sir, learned how to create a test report.
- **Tools used:** Postman, VS code, Claude
- **Status:**  Done

Proof:

 Postman API

Date: 30/05/2026 (SATURDAY)

1. Start Testing with Real Project (Veloce)

- **What I did:** Got the API documentation from Vijay for testing, starting with auth module. Imported the collections
- **Tools used:** Postman, JMeter, VS code, Github, Claude
- **Status:**  In Progress

What I Learned

- Learnt JavaScript fundamentals including `let` , `const` , `var` , and core data types.
- Wrote and executed JavaScript test scripts in Postman for various HTTP methods.
- Ran automated tests across an entire Postman collection using pre/post scripts.
- Set up and explored Apache JMeter for performance and load testing.
- Learnt how to structure and generate a professional API test report.

Blockers / Challenges

- Encountered an unexpected crash with Adobe Illustrator, which prevented the design file from being exported. Troubleshooting the issue consumed a significant portion of the day, causing a delay in testing task completion.

Priority	Task	Status
High	Complete testing of the Veloce Auth Module and document results in a structured test report.	Pending
High	Continue testing additional modules from the Veloce API documentation.	Pending

References / Resources Used

- [Adobe Illustrator](#) – Used for brochure and poster design.
- [Flaticon](#) – Used for icons and illustrations in design tasks.
- [JavaScript Basics – YouTube](#) – Referred for learning JS fundamentals.
- [Postman Learning Center](#) – Referenced for writing test scripts and collection testing.
- [Apache JMeter Documentation](#) – Referred for JMeter setup and performance testing.
- [Veloce API Documentation](#) – Provided by Vijay, used for real project testing.
